

Dear FCC,
Give satellite radio the right of free speech, nationwide!

I benefit from listening to XM Satellite Radio and its traffic and weather channels. I feel that satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I'm permitted to hear. Respectfully, I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.

Save satellite radio, just as you did early on for Cable-TV.
